

## Company Information

**As specialists, we are committed to providing comprehensive, customized and cost-effective solutions to your civil and structural engineering problems.** Our services are unique as we provide our esteemed clientele a personalized, innovative and comprehensive package for each and every structural engineering problem.

More than just suppliers of products and materials, we are a complete engineering solutions provider with an experienced pool of qualified engineers and highly trained staff. Our direct involvement — from the research, development, testing and manufacturing stage of our product range, to the in-depth professional technical services provided during the proposal and design stage of every project — defines our focus on quality.

With our commitment to ensuring certified training, guidance and close supervision during the implementation stage of every project, FYFE Asia Pte Ltd and our state-of-the-art TYFO<sup>®</sup> Fibrwrap<sup>®</sup> Composite Systems are a league above the rest, in the rapidly growing field of structural retrofit using advanced composite materials.
