

Force Protection and Blast Mitigation

Tyfo® Fibrwrap® systems offer a variety of products for blast mitigation projects:

- Tyfo® Fibrwrap® composite systems for blast hardening of existing structures
- Tyfo® FE-BR System – DOS certified 15-minute forced entry and ballistic resistance system for brick walls
- Tyfo® Cable Protection System – A combination of composite and shielding material to protect cables from various threats
- Tyfo® Ballistic Panels – prefabricated panels to provide protection against firearms
- Tyfo® Close-In Blast – A special design of composite and steel sheathing to protect structural members from near-proximity blasts with minimal standoff distances
- Tyfo® Steel Reinforced Rubber (SRR) System – special composite wire fabric
